

# Knowledge Transfer Partnership (KTP) 10 Year Celebration

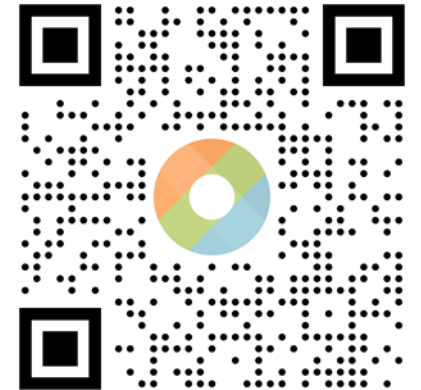

**Tuesday 7 March 2023**

**#KTPgrowth2023**

## Why partner with The University of Hull?

The University of Hull has been involved with many KTPs which have delivered huge competitive advantage to the business we've partnered with, from increased turnover to the ability to enter new markets. Over two-thirds of our graduate Associates have been offered permanent positions with the company at the end of the KTP.

University of Hull researchers are always developing commercially-applicable new ideas and technologies. Our Knowledge Exchange team is always on the lookout for opportunities to partner with businesses to develop and/or license our intellectual property.
